

1. Go over the "QTV" app and press the "Option" button in the Remote Control and will pop this window and go to the "Settings" option and press "OK":

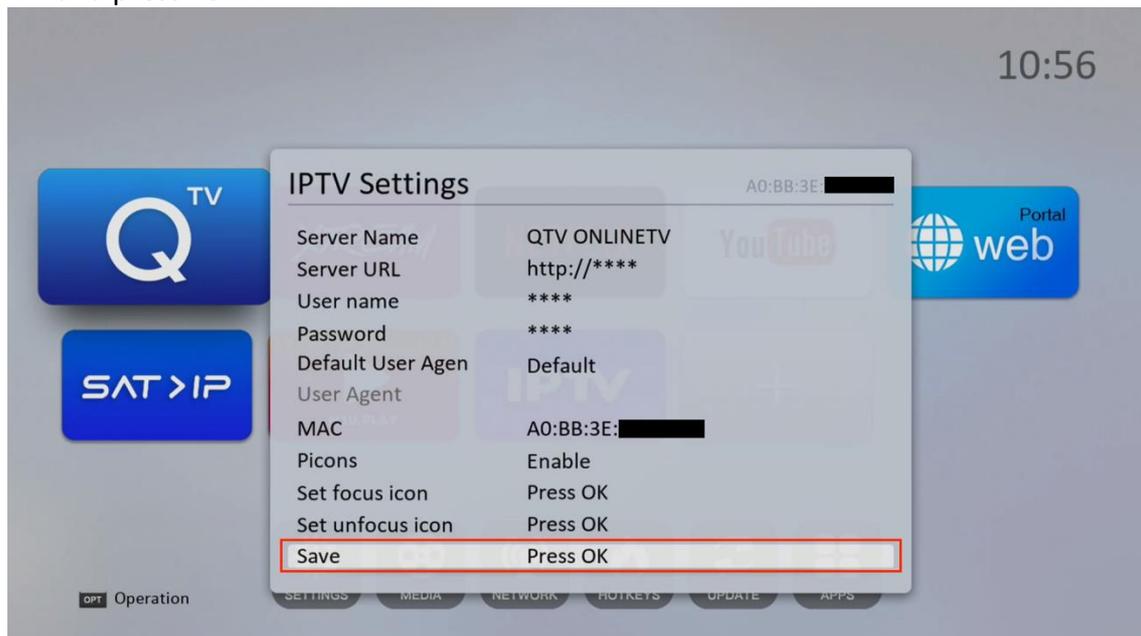

2. It will pop up a window, go to the "Server URL" option and press "OK":

- It will pop up a keyboard where you should input the **URL** of your service and then press the **“Blue”** button of your Remote Control to **“Save&Exit”**:

- It will back to the previous window and then you should go over the **“Save”** option and press **“OK”**:

Note: Your URL will show with the **“****”** for your privacy.

- Then when you go to the **“QTV”** app and press **“OK”** to access, it will connect to the added service.
