

1. The first step is download the “Hitool” tool:

<https://mega.nz/file/I6YxBcBd#zIvIjUyQ3IiiEP8-M4DMfedgaNLMG2wRG2I4DBYGCv0>

2. Once you have download the “Hitool” tool, open it in your PC.

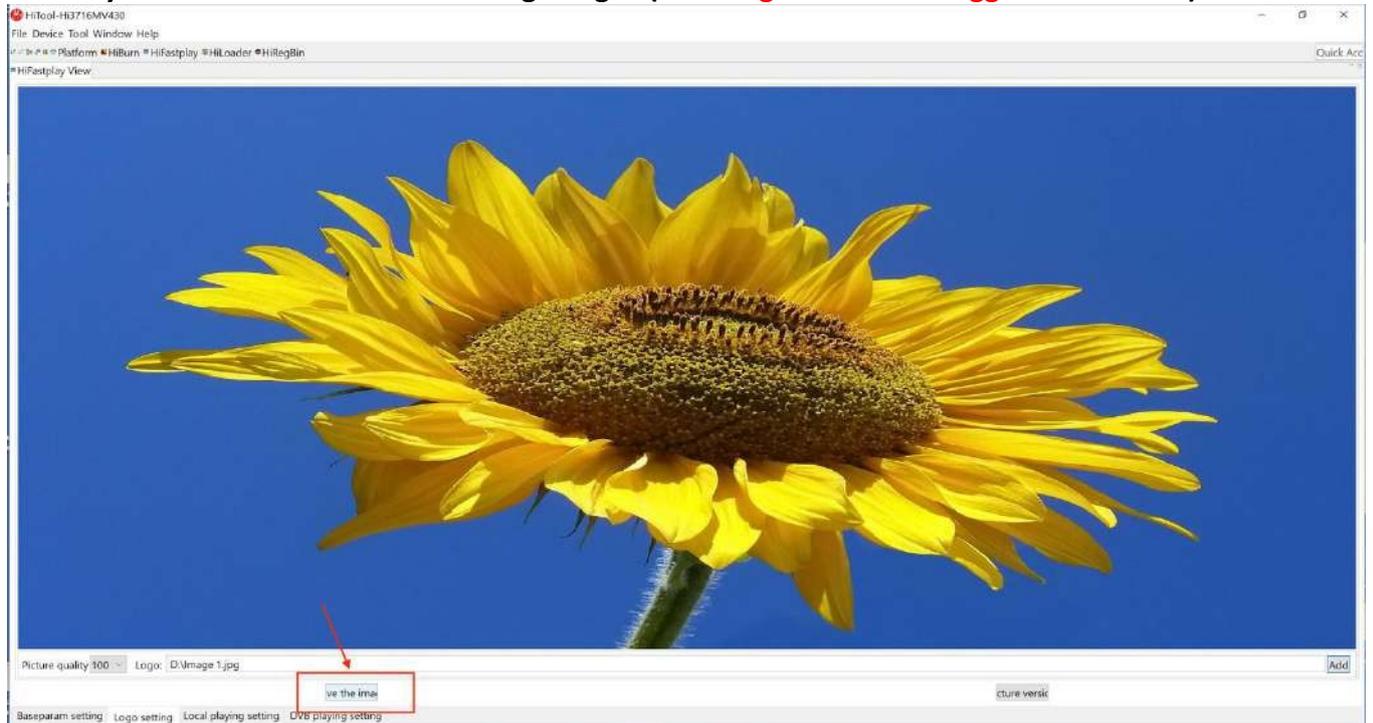

3. Go to the “HiFastplay” menu and go to the “Logo setting” function:

4. Go to the “Add” function:

5. And select the image you want to use for the “Booting Image” and go to the “Save the image” function and save the image in your USB stick and then this file is what you have to use for the “Booting Image” (the image can not be bigger than 600KB).

6. Then connect the USB stick in the box and go to the Menu/Settings/OSD Settings/ “Boot logo [<600KB]” and select the image that you have created and you want to use for the “Booting Image”.
